

Gold Film Multifit

Gold Film is now available with Multifit hole patterns!

Optimal dust-free sanding results can now be achieved using Gold Film Multifit Discs. The special stearate coating is used to maximize resistance to loading, which is perfect for fine sanding.

FEATURES AND BENEFITS:

- Designed for fine finishing
- Aluminum oxide grain delivers a fast and long lasting cut
- Semi-open coat produces an even, consistent scratch pattern
- Compatible with any grip-attaching backup pad
- No alignment means quick disc changes

TECHNICAL SPECIFICATIONS

Grain	Aluminum oxide
Color	White
Backing	Film
Bonding	Low VOC resin system
Coating	Semi-open
Attachment	Grip
