

SAFETY DATA SHEET (SDS)

SAFETY DATA SHEET (SDS)					
Section 1. Identification					
Product identifier Secondo Mono					
Other means of identification	n None				
Recommended use and restr	ictions on use Oil for wood/Stain				
Initial supplier identifier Huiles pour bois Prato-Verde Inc. / Prato-Verde Wood Finishing Oils Inc.					
**	797 avenue Granada, Rouyn-Noranda, QC, J9		ax : 819 797-8823		
	info@prato-verde.com & www.prato-verde.co				
Emergency telephone number	Emergency telephone number/restriction on use Canada – CANUTEC 24 hour number 613-996-6666				
Section 2. Hazard identification					
Classification of hazardous p	product (name of the category or subcategory				
Flammable liquid (Category 3					
Specific target organ toxicity -					
Carcinogenicity (Category 2)					
Reproductive toxicity (Catego	rv 2)				
	ols, signal words, hazard statements and prec	autionary statements of the catego	ry/subcategory)		
 Danger H226 Flammable liquid and vapor. H336 May cause drowsiness or dizziness. H351 Suspected of causing cancer. H361 Suspected of damaging fertility or the unborn child. P201 Obtain special instructions before use. P202 Do not handle until all safety precautions have been read and understood. P210 Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking. P240 Ground and bound container and receiving equipment. P241 Use explosion-proof equipment. P242 Use non-sparking tools. P243 Take action to prevent static discharges. P260 Do not breathe dust/fume/gas/mist/vapours/spray. P271 Use only outdoors or in a well-ventilated area. P280 Wear gloves/protective clothing/eye protection/face protection. P304 + P340 IF INHALED: Remove person to fresh air and keep comfortable for breathing. P312 Call a doctor if you feel unwell. P303 F P353 IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water. P308 + P313 IF exposed or concerned: Get medical attention. P370 + P378 In case of fire: Use carbon dioxide, chemical powder agent and appropriate foam to extinguish. P403 + P233 + P235 Store in a well-ventilated place. Keep container tightly closed. Keep cool. P405 Store locked up. P501 Dispose of contents/container into safe container in accordance with local, regional or national regulations. Other hazards known DANGER OF COMBUSTION - Materials such as rags used with this product may begin to burn by themselves. After 					
use, put rags in water or lay flat to dry, then discard. Section 3. Composition/information on ingredients					
Chemical name (common na		CAS number or other	Concentration (%)*		
Heavy aromatic hydrocarbon/		64742-48-9	40-70		
Linseed oil		68649-95-6/8001-26-1	< 10		
2-(2-Butoxyethoxy) ethanol		112-34-5	< 10		
Hexanoic acid, 2-ethyl-, zinc salt,basic		85203-81-2	~ 0.1		
2-Butoxyethyl acetate		112-07-2	< 15		
Titanium dioxide		13463-67-7	< 15		
* Statement - This safety data sheet provides concentration range(s) instead of the actual concentration(s) by weight (except for gases/propellants by volume					
considered trade secret(s).					

High-performance, sumptuous wood products	DATE & VERSION - AUGUST 22, 2023 VERSION 02			
Section 4. First-aid measures				
Inhalation	IF INHALED: Remove person to fresh air and keep comfortable for breathing. Call a doctor if you feel unwell.			
Ingestion		IF SWALLOWED: Immediately call a doctor. DO NOT INDUCE VOMITING. NEVER give anything by mouth if victim is		
	rapidly losing consciousness, or is unconscious	rapidly losing consciousness, or is unconscious or convulsing. Rinse mouth thoroughly with water. Have victim drink two glasses		
	of water. If vomiting occurs naturally, have vi	of water. If vomiting occurs naturally, have victim lean forward to reduce risk of aspiration.		
Skin contact	IF ON SKIN: Wash with plenty of water (5-10	0 minutes). If skin irritation occurs: Get medical attention. Take off contaminated		
	clothing and wash it before reuse.			
Eye contact	IF IN EYES, Rinse cautiously with water for s	several minutes (5-10). Remove contact lenses, if present and easy to do. Continue		
	rinsing. If eye irritation persists: Get medical a			
Most importan	t symptoms and effects (acute or delayed)	Mild transient eye irritation.		
Indication of in	nmediate medical attention/special treatment	In all cases, call a doctor. Do not forget this document.		
	Section 5.	Fire-fighting measures		
Specific hazard	ds of the hazardous product (hazardous combu	stion products)		
Carbon oxides a	and other irritant/toxic gases and fumes.			
Suitable and u	nsuitable extinguishing media			
In case of fire: Use carbon dioxide, chemical powder agent and appropriate foam to extinguish.				
Special protective equipment and precautions for fire-fighters				
During a fire, irritating/toxic smoke and fumes may be generated. Do not enter fire area without proper protection. Firefighters should wear proper				
protective equipment and self-contained breathing apparatus with full facepiece. Shield personnel to protect from venting, rupturing or bursting cans.				
Move containers from fire area if it can be done without risk. Water spray may be useful in cooling equipment and cans exposed to heat and flame.				
Section 6. Accidental release measures				
Personal preca	utions, protective equipment and emergency p	rocedures		
Restrict access to area until completion of clean-up. Ensure clean-up is conducted by trained personnel only. All persons dealing with clean-up should				
wear the approp	riate protective equipment (See Section 8).			
	naterials for containment and cleaning up			
Vantilate area of release. Stop the leak if it can be done sofely. Contain and absorb any spilled liquid concentrate with inert absorbant meterial the				

Ventilate area of release. Stop the leak if it can be done safely. Contain and absorb any spilled liquid concentrate with inert absorbent material, then place material into a container for later disposal (see Section 13). Contaminated absorbent material may pose the same hazards as the spilled product. Notify the appropriate authorities as required.

Section 7. Handling and storage

Precautions for safe handling

Wear gloves/protective clothing/eye protection/face protection.

Before handling, it is very important that engineering controls are operating, and that protective equipment requirements and personal hygiene measures are being followed. People working with this chemical should be properly trained regarding its hazards and its safe use. Inspect containers for leaks before handling. Label containers appropriately. Ensure proper ventilation. Avoid breathing dust/fume/gas/mist/vapours/spray. Avoid contact with eyes, skin and clothing. Keep away from heat, sparks and flame. Avoid generating high concentrations of dusts, vapours or mists. Keep away from incompatible materials (Section 10). Keep containers closed when not in use. Empty containers are always dangerous. Refer also to Section 8.

Conditions for safe storage, including any incompatibilities

Store in a well-ventilated place. Keep container tightly closed. Keep cool. Store locked up. Store away from incompatible materials (Section 10). Inspect all incoming containers to make sure they are properly labelled and not damaged. Storage area should be clearly identified, clear of obstruction and accessible only to trained personnel. Inspect periodically for damage or leaks.

Section 8. Exposure controls/Personal protection

Control parameters (biological limit values or exposure limit values and source of those values)

Exposure limits: CAS 13463-67-7 ACGIH – TLV-TWA 10 mg/m³ & PEL-TWA 10 mg/m³;

Dust – PEL-TWA 15 mg/m³ (total dust) & 5 mg/m³ (respirable fraction);

Appropriate engineering controls

Use under well-ventilated conditions. Local exhaust ventilation system is recommended to maintain concentrations of contaminants below exposure limits. Make emergency eyewash stations, safety/quick-drench showers, and washing facilities available in work area.

Individual protection measures/personal protective equipment

Respiratory protection is required if the concentrations are higher than the exposure limits. Use a NIOSH approved respirators if the exposure limits are unknown. Chemically protective gloves (impervious), and other protective clothing to prevent prolonged or repeated skin contact, must be worn during all handling operations. Wear protective chemical splash goggles to prevent mists from entering the eyes. Wash hands/nails/face thoroughly after handling. Do not eat, drink or smoke when using this product. Practice good personal hygiene after using this material. Remove and wash contaminated work clothing before re-use.

Section 9. Physical and chemical properties Physical state Liquid, viscous PH Not available Colour Various Kinematic viscosity 2000 nm ² /s @ 40°C Odour Characteristic Solubility Not available Mot available Melting/freezing point -78°C Partition coefficient - n-octanol/water (log) Not available Flammability Flammability (and vapor Density/relative density Not available Mot available Upper and lower Anuosility/sexplosive limits Not available Relative apour density Not available Flash point 38°C closed cup Particle characteristics Not available Auto-ignition temperature Not available VOC less than 450 g.t. Toxicological information Information on the likely routes of exposure (inhalation, ingestion, skin and eye contact) May cause drowsiness or dizziness. Suspected of causing cancer. Suspected of damaging fertility or the unborn child. Symptoms related to the physical, chemical and toxicological characteristics Eye irritation, redness, tearing; Respiratory tract irritation, coughing, shortness of breath, dizziness, drowsiness, nausea and headaches. Delayed and immediate effects (chronic effects from short-term and long-term exposure) Skin Sensitization – No data available; Respiratory Sensitization – No data available; Germ Cell Mutagenicity – No data available; Carcinogenicity – Ingredient listed by IARC, ACGIH, NTP or OSHA Reproductive Toxicity – Possible; Specific Target Organ Toxicity — Single Exposure – Possible; Specific Target Organ Toxicity — Repeated Exposure – No data available; Aspiration Hazard – No data available; Health Hazards Not				
Hazardous decomposition products None known Section 11. Toxicological information Information on the likely routes of exposure (inhalation, ingestion, skin and eye contact) May cause drowsiness or dizziness. Suspected of causing cancer. Suspected of damaging fertility or the unborn child. Symptoms related to the physical, chemical and toxicological characteristics Eye irritation, redness, tearing; Respiratory tract irritation, coughing, shortness of breath, dizziness, drowsiness, nausea and headaches. Delayed and immediate effects (chronic effects from short-term and long-term exposure) Skin Sensitization – No data available; Respiratory Sensitization – No data available; Germ Cell Mutagenicity – No data available; Carcinogenicity – Ingredient listed by IARC, ACGIH, NTP or OSHA Reproductive Toxicity – Possible; Specific Target Organ Toxicity — Single Exposure – Possible; Specific Target Organ Toxicity — Repeated Exposure – No data available; Aspiration Hazard – No data available; Health Hazards Not

Possible; Specific Target Organ Toxicity — Repeated Exposure – No data available; Aspiration Hazard – No data available; Health Hazards Not				
Otherwise Classified – No data available.				
Numerical measures of toxicity (ATE; LD ₅₀ & LC ₅₀)				
None				
ATE not available in this document.				
Section 12. Ecological information				
Ecotoxicity (aquatic and terrestrial information)				
No data available for the product.				
Persistence and degradability No data available				
Persistence and degradability No data available				
Persistence and degradability No data available Bioaccumulative potential No data available				
Bioaccumulative potential No data available				
Bioaccumulative potential No data available Mobility in soil No data available Other adverse effects No data available for the product.				
Bioaccumulative potential No data available Mobility in soil No data available				

sumptuous wood products					
	Section 14. Transport information				
	UN number; Proper shipping name; Class(es); Packing group (PG) of the TDG Regulations				
UN1263; PAINT; CLASS 3; PG III					
	UN number; Proper shipping name; Class(es); Packing group (PG) of the IMDG (maritime)
