

Bona AmberSeal®

Warm, rich, oil-modified undertone, but won't get yellower or darker with age. Contains an amber pigment.

Bona AmberSeal® is a non-yellowing, poly-tone waterborne sanding sealer that provides an oil-based look to hardwood floors. Can be used with all Bona waterborne finishes over both stained and unstained floors.

- Specially formulated to provide an oil-based look
- Reduces tendency for side bonding
- Virtually odorless and nonflammable
- VOC Compliant
- Seals the wood, preventing the finish from penetrating

Bona waterborne wood floor sealers offer excellent abrasability, fast dry times, and reduced potential for side bonding and tannin bleed. They are non-flammable and virtually odorless sealers.
