6120 siavlies speed™ – fast and consistent finishing

Structure

Grit: aluminium oxide, silicone carbide
 Bonding: synthetic resin
 Grade range: very fine, ultra fine, micro fine
 Form: nylon fleece, open

Properties

Cut: immediate, uniform
 Stability: highly flexible
 Lifetime: long
 Finish: very consistent

Advantages

- ☑ Improved flexibility for hard to reach areas
- ☑ Consistent scratch pattern due to improved grain consistency
- ☑ Increased lifetime as a result of the grain distribution through the fleece
- ☑ Can be used wet or dry
- ☑ For manual or machine use
- ☑ Improved tear resistance
- ☑ No clogging

Applications with grade recommendation

Keying of e-coats

Matting of lacquer or metallic colour coats

Matting of sensitive paint and lacquer
