

The Ultimate  
Mixing,  
Pouring, &  
Storage Pail

# Introducing the **EcoPoxy Pour Pail**

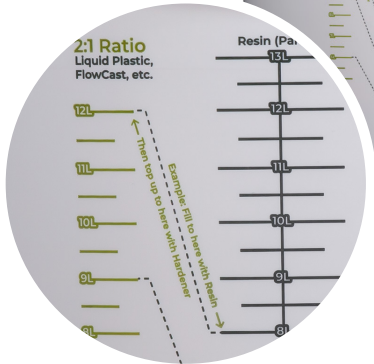

Elevate your project workflow with the innovative EcoPoxy Pour Pail. The revolutionary handle design makes pouring easy and mess free. Another innovational addition to the artist and craftsman toolkit.

**ecopoxy** 

## Measure with ease

With the new measurement guide, mixing your EcoPoxy has never been easier. Follow the lines on the side of the bucket to measure out your ratios.

## Get a handle on things

Featuring a unique ergonomic bottom handle in addition to the standard top handle, the EcoPoxy Pour Pail provides unparalleled control of your pour.

## Multi-use, compact storage

With a durable, chemical resistant HDPE construction you can use (and reuse) the Pour Pail for a variety of workshop applications. Multiple pails can be nested for compact storage.

## Pick your colour

We offer pails in both White and Natural colors. White provides a cleaner look, while translucent allows for better visibility of contents.
