

## ENVIRONMENTALLY CONSCIOUS BY DESIGN

All Fusion™ paints are non-toxic, lead free, virtually odourless and contain no ammonia or formaldehyde. Our containers are made of 30% recycled materials.

## BUILT-IN TOP COAT

Our premium formula ensures a superior finish with a built-in top coat making your projects easy to complete! After the piece is cured, wash away spills using a soft cloth with water and a mild soap.

## INCREDIBLE COVERAGE

One pint (500mL) will typically cover several pieces of furniture, in most cases, 1-2 coats is all you need.

## HIGHLY DURABLE FORMULATION

Once Fusion™ has cured, it yields a highly durable and washable finish. Fusion™ uses industrial grade acrylic resin in the formula. This provides incredible adhesion qualities so your paint literally fuses to the surface, and has an incredible interior or exterior long wearing durability!

## SUPER SMOOTH, MATTE FINISH

Fusion™ is offered in a gorgeous matte finish. This means an almost zero reflectance value that allows you to achieve a beautiful smooth matte finish with no brushstrokes in sight.

## 50+ COLOURS

Get inspired with our true colour fan decks featuring over 50 hues. We've curated our customer favourites from the past 30 years, and combined them with beautiful new custom blend recipes for shade variations that are sure to delight.

## A NOTE ON SPECIALTY FINISHES AND FAUX EFFECTS:

If you require more protection, there are several top coat options. On a light colour, you'll love our non-yellowing clear matte or gloss Tough Coat™. If you're using a dark colour and wish to increase the luster and durability in one step, apply our Stain & Finishing Oil in Natural, or our Gel Stain & Top Coat in Patina. Looking to enhance sheen, add a lovely pearl luster, or perhaps a shimmering metallic glow? Try one of our clear, coloured, or metallic waxes. For a rustic or weathered charm, try our Ageing Wax or Antiquing Glaze.

*Paint is good for the soul*

Each pot of colour is hand-poured and labelled with love in North America.

We are family-owned and operated – proudly so!  
Our parent company, Homestead House Paint Co., has been in business since 1989.

Fusion Mineral Paint™ is a labour of love for founder Jennylyn Pringle. She has generations of paint expertise behind her, learned from the family business. Forever inspired by the power of a fresh coat of paint, Jennylyn created Fusion™ as the ultimate go-to for fellow DIY enthusiasts around the world. With over 50 gorgeous colours to choose from and a full range of specialty finishes, you can tackle any project: big or small.

Available worldwide from independent retailers in over 30 countries. To learn more about the collection, where to purchase, or get inspired with our tutorials, connect with us online:

WITH THESE EASY STEPS

## GETTING STARTED

The secret to a beautiful finish is to apply Fusion Mineral Paint™ to a clean surface. Fusion™ adheres very well to clean water-based paints and even oil bases, without the use of a primer. Clean your piece with our TSP Alternative to remove grease and dirt, and if there is a gloss, give it a light scuff sand. Use our Odourless Mineral Spirits to remove soft wax, siliconized oil polishes, fire retardants or stickiness that the TSP Alternative degreaser was unable to remove. We recommend using Fusion™ Ultra Grip™ on very high-gloss finishes, detailed areas, or slick surfaces like Thermafoil that cannot be scuff sanded easily to improve adhesion. To stop bleed through of tannins or wood knots block first by using Zinsser BIN shellac.

## SELECTING YOUR TOOLS

Your tools for applying Fusion™ are just as important as your technique. Keep in mind when hand painting a piece, part of the charm can be the hand painted look of brush strokes. To achieve a brush stroke free finish, use less paint on your applicator and use the finest quality tools. Try one of our premium Staalmeester® brushes or rollers for a flawless brush stroke free result.

## EASY APPLICATION

A little goes a long way! Depending on your project, base colour and chosen paint colour, you will need anywhere from 1-3 coats for full coverage.

Apply a small amount of paint on your applicator, and brush or roll end to end. If you can see paint lines or dimple marks, use less paint on your tools. If your paint is drying too quickly and creating texture or brush strokes, increase your open working time by adding our Extender into the paint.

## A NOTE ON RECOAT TIME:

Fusion™ is dry to the touch after 30 minutes and ready for a re-coat within 1-2 hours. Cure time with all acrylic paints is 21 days. However, painted surfaces can be used gently after 24 to 48 hours of drying time. Longer dry and cure times are required for painting done in high humidity and cooler temperatures, or in cases where multiple coats of paint were applied. Be gentle the first couple of days after painting to ensure that perfect finish.
