osmo

WOOD WAX FINISH

Transparent and intensive colour designs!

DESCRIPTION

Natural oil and wax based wood finish that meets the natural demands of timber and retains it's natural characteristics. Microporous and will not peel crack, flake or blister. Resistant against wine, beer, cola, coffee, tea, fruit juices, milk against water. When dry, the finish is safe for humans, animals and plants; as well as being suitable for children's toys as per EN 71.3 (European norm) as well as resistant to perspiration and saliva.

RECOMMENDED USE

Interior cladding, ceiling profiles, doors, skirting, beams, edge glued panels, hardboard and MDF.

Ideally suited as a coloured primer for wooden floors and furniture, or for re-coating already darkened wood surfaces. Especially recommended for children's toys.

ſ	258 ft²/11
	1 COAT

INGREDIENTS

Based on natural vegetable oils and waxes (sunflower-oil, soyabean-oil, carnauba-wax, candelilla-wax), paraffins. Naphtha (petroleum), hydrotreated heavy (dearomatized, benzene-free). Complies with Environment Canada VOC regulations (SOR/2009-264).

Iron oxide and organic pigments, Titanium dioxide (white pigment), siccatives (drying agents) and water-repellent additives.

TECHNICAL DATA

Specific weight: 0.90 -1.3 g/cm³ Viscosity: >70s DIN EN ISO 2431/3 mm, viscid Odour: faint/mild, odourless after drying Flash point: >61 °C, acc. DIN EN ISO 2719

STORAGE

Shelf life is 5 years or more if can is tightly closed. Store in a dry place. If thickened by frost it will regain a normal consistency under normal temperatures within 24 - 36 hours.

PREPARATION

Wood surface must be clean and dry (moisture content max. 20%). Osmo Wood Wax Finish is ready to use, please do no thin, stir well before use. Clean or slightly sand old microporous finishes, remove old varnish (Osmo Paint Remover or by sanding). Always wear a dust mask when sanding.

Sand carefully before application starting with a coarse paper – final sanding for flooring P 120 - 150, furniture P 150 - 220. Remove dust etc. thoroughly from the surface with a brush or vacuum cleaner before application. The finished surface is, among other things, influenced by the wood's natural characteristics, therefore a trial application is required before finishing.

PRODUCT INFORMATION | INTERIOR

DIRECTIONS FOR USE

Osmo Wood Wax Finish is ready to use, please do not thin. Stir carefully before use.

<u>Transparent tones (1 coat)</u>: Apply thinly along the wood grain on the clean and dry wood surface.

For subtle glazing effect, apply thinly with a lint-free cloth on the whole area, and within 20 minutes wipe away excess cleanly and evenly. Allow for good ventilation whilst drying.

Intensive tones (2 coats): Apply thinly along the wood grain on the clean and dry wood surface using a high quality brush. Allow for good ventilation whilst drying. Then apply the second coat – also thinly.

<u>Flooring:</u> After thoroughly drying, a top coat should be carried out with a clear Osmo Polyx-Oil.

Note: Due to the risk of over-application, we strongly advise against the intensive application (two-coats) for flooring.

CLEANING OF TOOLS

Clean working utensils with Osmo Brush Cleaner and Thinner (benzene-free).

DRYING TIME

Approx. 24 hours (normal climatic conditions, 23 °C/ 50 % rel. humidity). Lower temperatures and/or higher air humidity can increase the drying time. Ventilate well while drying.

COVERAGE

1 Liter will cover approx. 258 ft² (24 m²)

Coverage depends significantly on the condition of the wood. All information refers to smooth and planed/ sanded surfaces. Other surfaces may lead to differences in coverage.

NOTE

Applying the product too generously and insufficient ventilation lead to delays in drying time and the typical smell of oil.

Choose colour tones that match the natural tone of wood or a darker colour tone (trial application).

Oils enhance the natural colour tone of wood (permanent wet effect).

For dark and extractive-rich hardwoods (e.g. Wenge, Mahogany, Merbau etc.), we recommend applying Osmo Wood Wax Finish Clear Extra Thin.

Trial application is recommended.

Caution: Apply max. one coat thinly to cabinet interiors and drawers with a cloth.

HAZARD STATEMENTS

CAUTION

READ INSTRUCTIONS BEFORE USING

DANGER OF COMBUSTION. Do not get in eyes. Do not get on skin or clothing. Keep out of reach of children. Use only in a well-ventilated area. Keep away from flames or sparks. Materials such as rags used with this product may begin to burn by themselves. After use, put rags in water or lay flat to dry, then discard.

FIRST AID TREATMENT. Contains aliphatic hydrocarbons. If swallowed, call a Poison Control Centre or doctor immediately. Do not induce vomiting. If in eyes, rinse with water for 15 minutes. If on skin, rinse well with water.

DISPOSAL

Dispose of leftover product and packaging in accordance with Local or Provincial recycling regulations.
